Request for Proposals – Well Drilling

Purpose of RFP

Moorland Township is a government entity. The township is requesting proposals for Well Drilling services for a new well located at the township cemetery located on Laketon Avenue. The township currently uses two stab wells for irrigation purposes only at the cemetery. We are looking to eliminate those current pumping systems and replace with a regular submersible pump type well. It would need to pump a minimum of 40 gallons per minute for the application we plan to use.

Response Date and Submission Requirements

Please submit bids by Tuesday, June 9, 2015 no later than 12:00 p.m. All bids must be in writing and received by the township's contact person by the aforementioned deadline. If bid is received after the deadline, it will not be considered. Be sure to include all prices and specifications for you recommended replacement of our current system.
