

## *SAVE THE DATE - 2025 Muskegon County Recycling Events Scheduled*

The 2025 Muskegon County Recycling Events are scheduled for the 4th Saturday of April (April 26, 2025) and the 3rd Saturday of October (October 18, 2025) from 9:00 AM - 1:00 PM. The events will occur rain or shine.

### The following items will be collected:

- Scrap Tires: First ten tires FREE! After that, a \$2 fee per tire applies. (No tires larger than 34" in diameter)
- Hazardous Waste: This is free for county residents (oils, pesticides, oil-based paint products— no latex paint)
- Electronics: Free drop-off for computers, TVs, and more

### Reminder:

- *Business waste and regular trash are NOT accepted. Latex paint will NOT be accepted*

Volunteers are always needed to assist with the scrap tires! This is a very dirty job that requires heavy lifting. Anyone can help, but please be prepared for an exhausting, messy, and wet day of volunteering.

Here is an overview of what volunteers assisting with scrap tires will be doing:

- Taking tires out of resident's vehicles
- Throwing them onto a semi-trailer
- Rolling tires to the front of the trailer
- Lacing tires from floor to ceiling
- If we get a good laced full load, we could do 5000 tires in 4 hours
