Dan Nutt, Zoning Administrator; reviewed current road projects, they are going well. The sand mining on Hall road has slowed down because the contract at the Muskegon County Landfill has been completed. Also discussed the need to review and update the township's sand mining ordinance. Things to consider include: ensuring a water truck is being used on day one of the project, having a street sweeper/road cleaner, enforcing a speed limit as well as the number of trucks per day that are allowed.
